

Pricing Examples

By selecting a markup, you can use your Fieldhouse store to fundraise! The markup is a commission that is added to the Fieldhouse base price of the retail items in your store.

- **Do I want to use my Fieldhouse store as a fundraiser?**
 - If the answer is no, then select a 0% markup.
 - If the answer is yes, then you should select a markup between 5% and 20%.
- **How much will my customers be willing to pay for custom logo wear & merchandise?**
 - Keep your customers in mind. Your markup increases the prices of the items in your store, so you should select a markup that will meet your customers' pricing expectations.

Your markup can be changed any time by submitting a request via email to customerservice@fieldhouse.com
